

W-WLM-6B-2

Automatic Washing Label Combined Machine

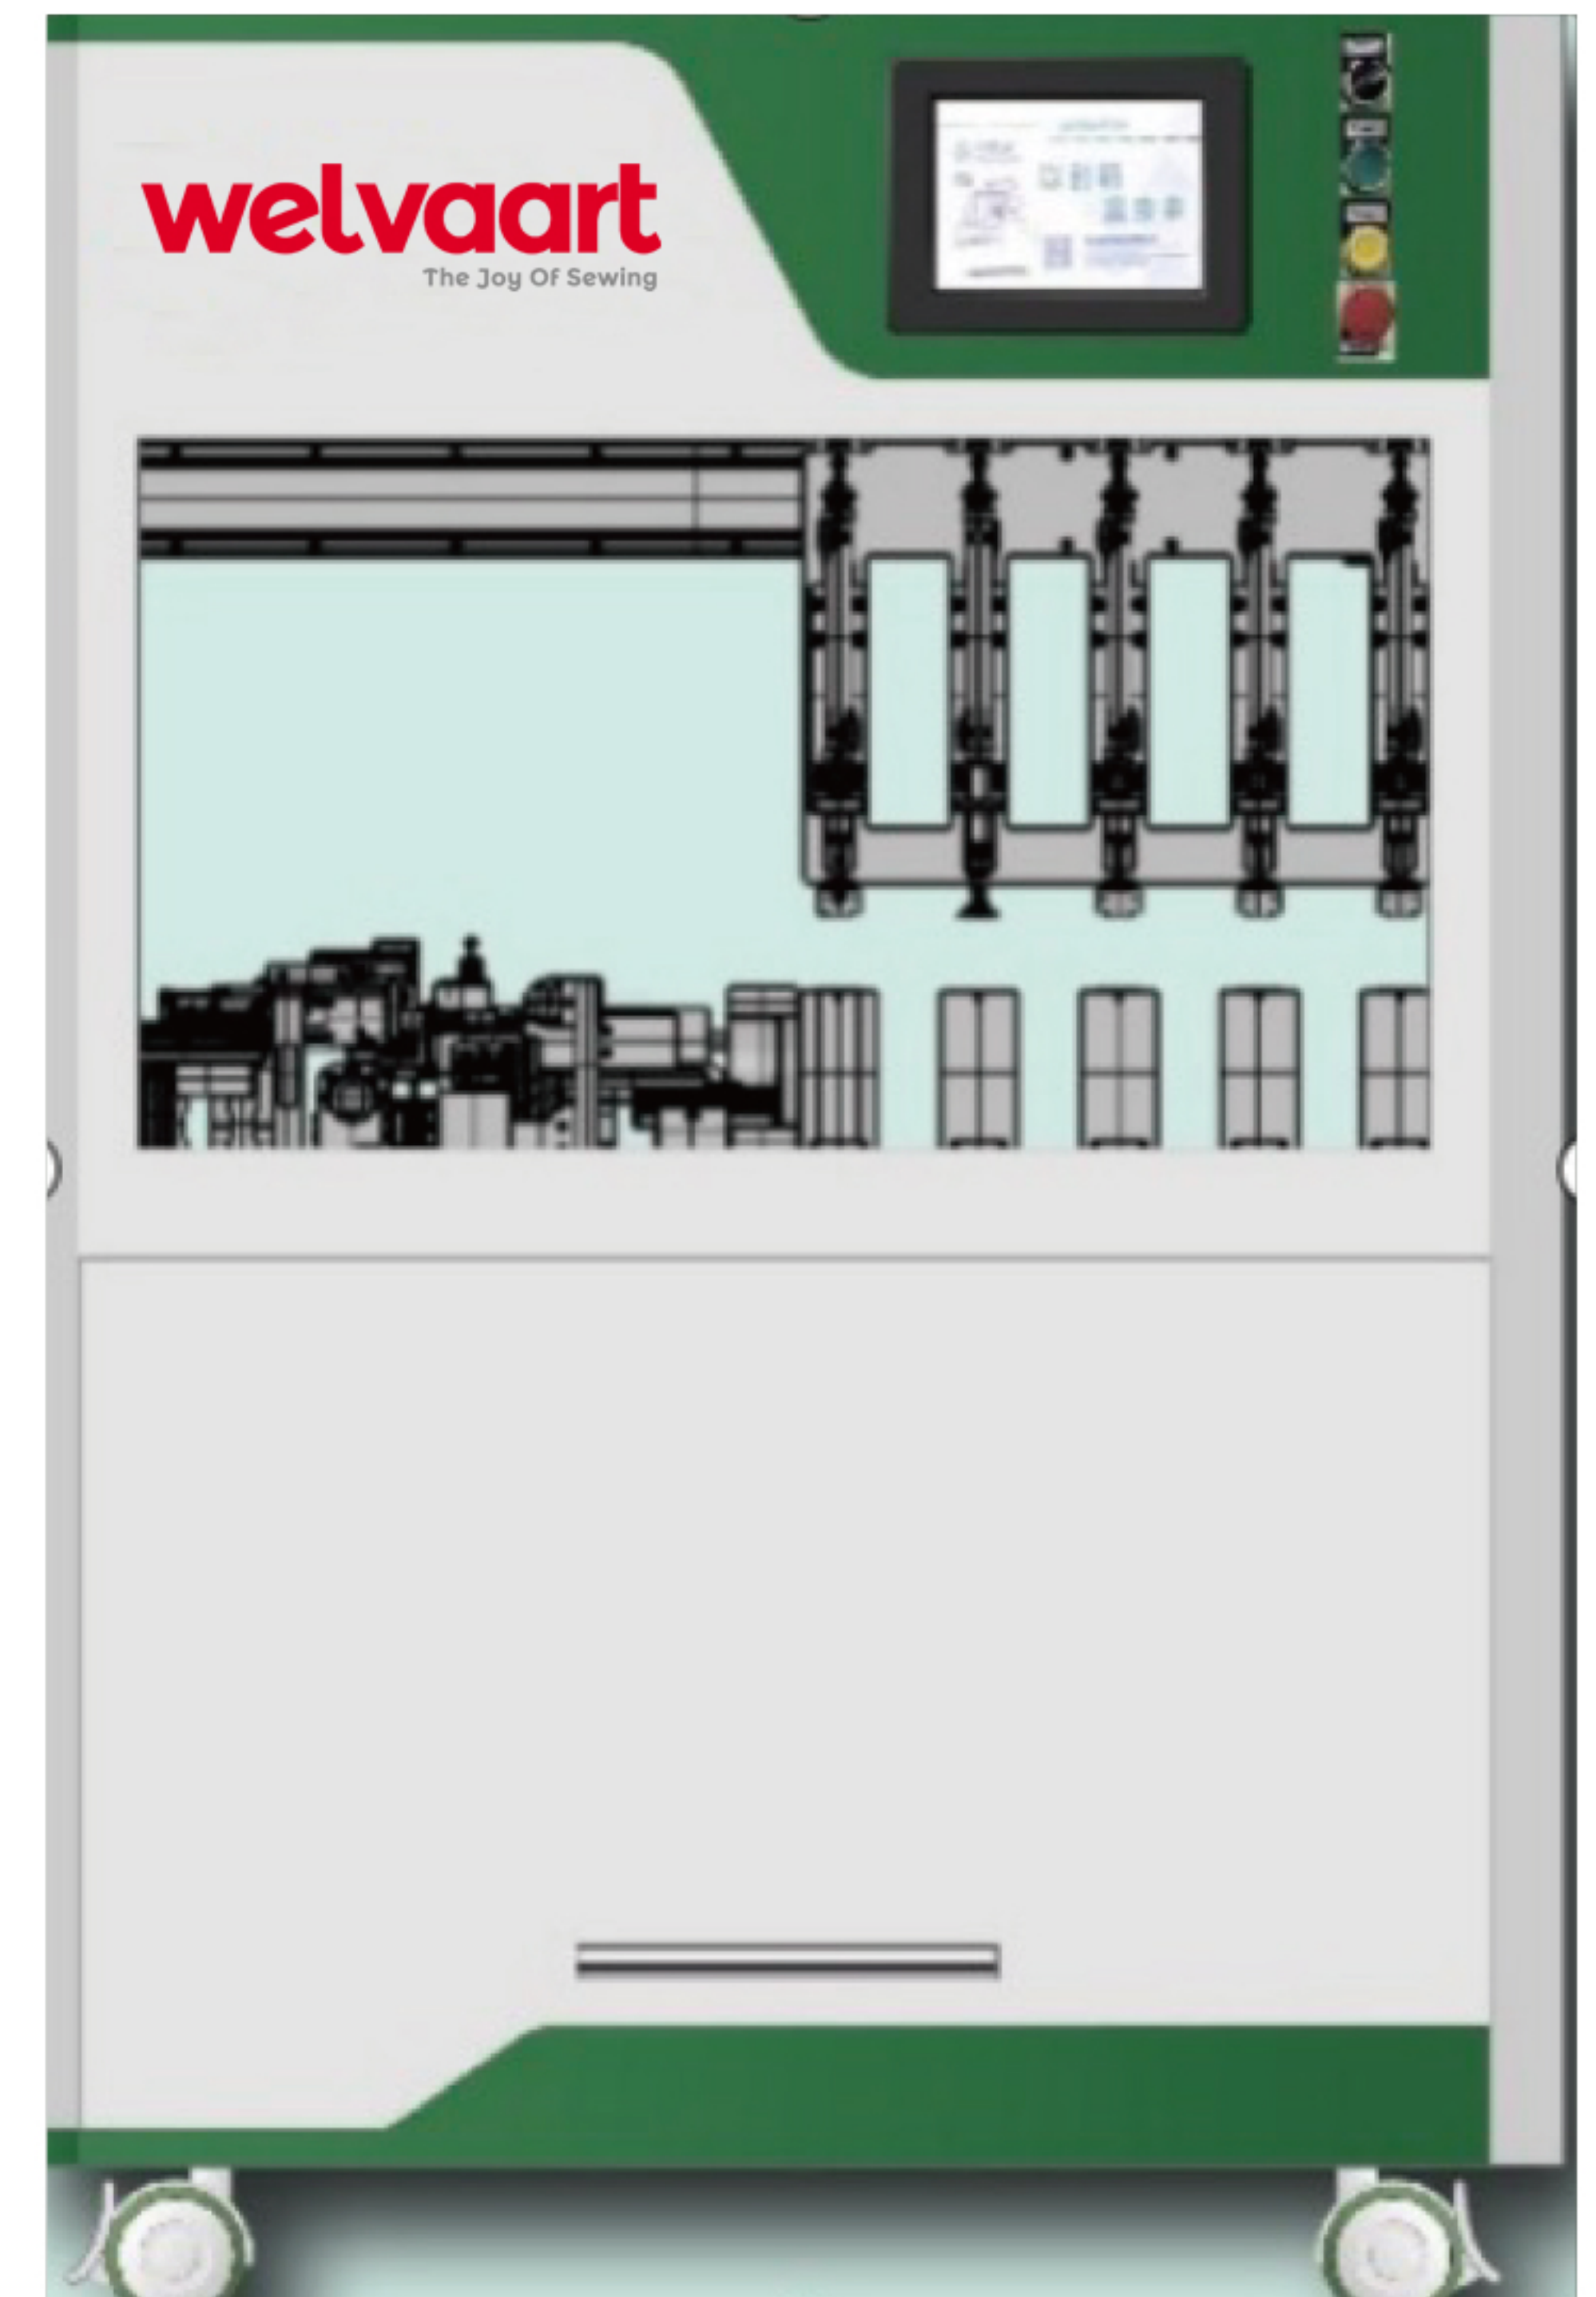

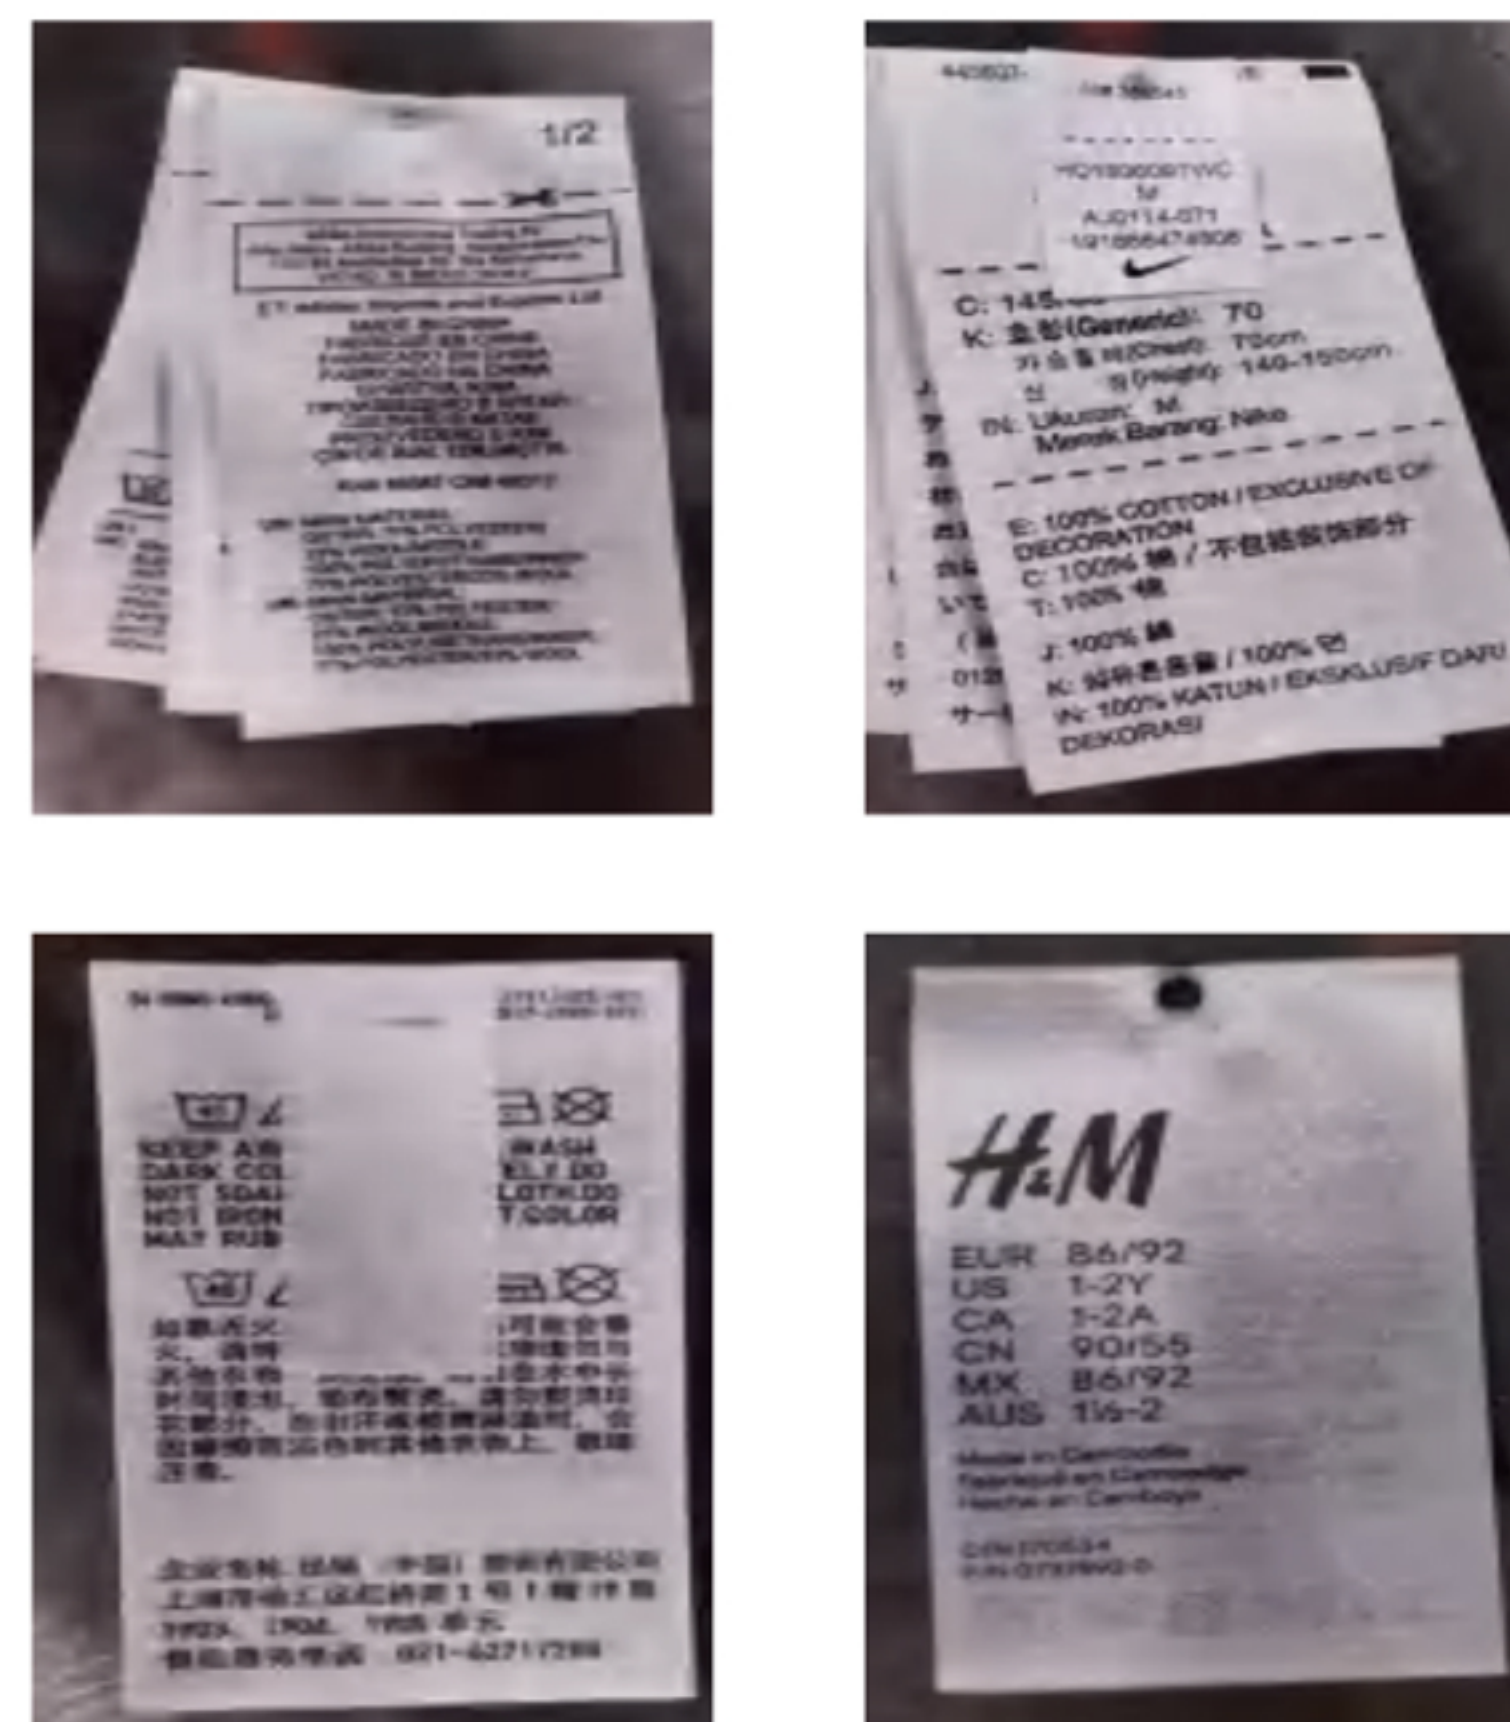

The Joy Of Sewing

FEATURE

It is used in the combination and fixation of washing marks in textile and garment industry and home textile industry. It can effectively solve the shortage of industrial washing marks in intelligent and automatic equipment sewing, and many problems such as easy error and slow speed in manual multi label combination sewing. Combined sewing machine and ultrasonic technology to realize full-automatic sewing label technology.

Suitable For All Kinds Of Multi-Layers Garment Washing Label
Improve Production Efficiency 2000% and 99.7% yield

Facilities	Hand made	W-WLM-6B-2
Worker	1 worker	1 worker control 3 mc
Standard working time	9S/PCS	35/PCS
Production / M.H	360	1200
Dairy production capacity	2880	23040

TECHNICAL PARAMETER

Voltage	AV220V
Intake pressure	0.5-0.7MPa
Suction pressure	0.2MPa
Number of finished product labels per group	2-6 pcs
Label length usage range	45-100mm
Label width usage range	34/45/50mm
Bin capacity	300/pcs
running speed	3-3.5 /pcs
Stitch Type	ultrasonic
PLC control brand	Panasonic
Motor brand	leadshine
Cylinder brand	AirTAC
Electrical brand	OMRON
Overall dimension	1000*700*1650mm
